

Christmas Memory

Submitted by Breanna Bartz

Christmas is a time of the year you can create good memories.

My memory is when I was three my mom let me get up at 6:00 on Christmas.

One reason that is my memory is because I do not like to sleep in. Another

reason that is my memory is because I like to be up and awake before my sister.

That also is my memory because I was excited to open my presents. Lastly, that is my memory because

Christmas is my favorite holiday and I wanted to see how many presents I had gotten.

Clearly, Christmas is a time of the year to create good memories.
