

“A Memorable Christmas Story”

My memorable Christmas story was funny,sad and filled with caring. My whole family was there. I loved that week. We did so many things together.

A week before Christmas my Dad, my two sisters, my older brother and I were making a snowman. We had no clue that my Mom was recording us. My younger sister that's a year younger than me was doing the head of the snowman. My other sister that's also younger than me, and I were doing the body. My Dad and brother were doing the bottom part of the snowman. My sisters and I were done and we were just waiting on my Dad and brother to finish. My Dad had to put the middle part of the snowman on top of the bottom. My little baby sister made a snowball and threw a snowball at my Dad. This made him fall on the snowman and break it. It was so funny that we ended up having a snowball fight after. I got hit in the eye, but I was okay. We made a new snowman so our lawn would look a little festive. After we went inside, we made some hot chocolate. When we were done we got dressed to go to our grandmas house and we had our traditional meal, rice and beans. We stayed till 8 o'clock pm. Then we went home and just watched movies the rest of the night. The next day my two sisters and I were going to ask our Dad if we could make a popcorn string for the Christmas tree. We asked and he said yes, but we had to do it in the kitchen. Its bigger in there. I was using the needle and pinning the popcorn on the string. My sister, Melinda that's a year younger than me, was pulling the popcorn to the end. My other sister, Malorie she's 3 years younger than me, was holding on to the end and knotted it . My sister Melinda ended up going outside with my little sister and my two little brothers. Malorie and I were working on it the whole day by ourselves but at one point Malorie and I wanted to go outside for a break. The next day we went shopping for the rest of the family and my Mom heard that our neighbors' kids didn't get any presents for Christmas because their parents didn't have get a lot of money. My Mom thought that it would be nice if we got them some. But that Christmas my Dad was broke so we didn't get a lot of presents, but some of us got more than others. My little sister only got two presents so I gave her some of the presents that were to little or to babyish for me.

I love my memorable Christmas. I will never forget having my family together for our traditional meal; rice and beans. I love spending time with my entire family during Christmas.
