

The Best New Years Eve Ever

I know New Years Eve is about the New Year but it is really so much more, if only you believe. My friend and I went to this New Years Eve party and it was magical.

There are many ideas of what New Years Eve is but I know the truth. I went to a New Years Eve party with my friend Angel. First we went to the rock climbing station and then her father brought over a drink with a umbrella in it. We just got so amazed. I know the drink with the umbrella sounds like nothing but it meant a lot to us. We thought it was like going to Florida and sitting at the beach. We finished the rock climbing station and went on this new ride. Next my friend and I went on a ride that looked like a swing. While on the swing we were enjoying some tootsie rolls and then we looked down and saw a clown. We just could not stop laughing. After we where done with everything her dad bought us fried dough. We ate it so fast. It was really good . We finally got home just before 12:00p.m. and we saw the ball drop on television. We had to go to bed. Angel's mom asked us what are New Year resolutions were and we knew just what to say. Angel wanted to be a gynnest. I said that I want to be nicer and sweeter and helpful to everyone. Also I wanted to be good at sports and maybe get on the football team because I really love football!

A person can have any New Year resolution as long as they believe they can change. Get a nice start on something new and have a safe and happy New Year.

HAVE A GREAT NEW YEARS EVE!
